Namo Sarve Bodhisattvaya-Mahasattvaya,*

On behalf of the monastic Sangha members, lay Dharma teachers, laymen and laywomen of the Indonesian Buddhists Community, we would like to express our deepest condolences for the passing of Mahabhikshu Thich Nhat Hanh, a monk, Zen master, spiritual leader, peace activist, founder of the Engaged Buddhism movement, who advocates freedom of religion, non-violence, and love for others, on Saturday, January 22, 2022, at the age of 95.

His presence in Indonesia in 2010 is still etched in all of us here. Walking together peacefully in the courtyard of Borobudur Temple, soothing dharma messages, retreat guidance that creates peace in the hearts of all participants and people who come into direct contact with him. It was a precious moment that we will never forget from an extraordinary human being, a very peaceful and simple monk.

Thank you for your love and wisdom for this world. Thank you for teaching us to love and live this life in a beautiful and simple way. Hopefully, we can continue maintaining your spirit and strive to create a more beautiful and happier world.
